<b>Interview Summary</b>	<b>Application No.</b> 10/539,570	<b>Applicant(s)</b> PASCAL ET AL.	
	<b>Examiner</b> BHASKAR MUKHOPADHYAY	<b>Art Unit</b> 1787	

All participants (applicant, applicant's representative, PTO personnel):

(1) BHASKAR MUKHOPADHYAY. (3) Daniel J. Pereira, Atty..

(2) Callie Shosho, SPE. (4) \_\_\_\_\_.

Date of Interview: September 1, 2010.

Type: a) ☐ Telephonic b) ☐ Video Conference  
c) ☒ Personal [copy given to: 1) ☐ applicant 2) ☐ applicant's representative]

Exhibit shown or demonstration conducted: d) ☐ Yes e) ☐ No.  
If Yes, brief description: \_\_\_\_\_.

Claim(s) discussed: 11, 22, and 23.

Identification of prior art discussed: Bessette (I) [2002/0028256], Bessette (II) [USPN 6887899], NPL 'Acarid Killer', Knight (USPN 5439690), and NPL "Mills JT ( in 'Phytopathology', entitled "Insect-fungus associations influencing seed deterioration, pg 330-335, 1982).

Agreement with respect to the claims f) ☐ was reached. g) ☐ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: See Continuation Sheet.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

	/Callie E. Shosho/ Supervisory Patent Examiner, Art Unit 1787
--	--

## Summary of Record of Interview Requirements

### Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

#### Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

#### 37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,  
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

#### Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Atty Mr Pereira explained the invention. He discussed the differences between the claims and the prior art. In particular, applicants position has focused on sodium bicarbonate, as active agent, which is used in amount of more than 40% by weight in claim 11, is not disclosed by the prior art. Mr Pereira also pointed out that the prior art NPL 'acarid killer' uses sodium bicarbonate along with calcium carbonate etc. and Knight uses more than 60% sodium bicarbonate as insecticide killer, but not as an acarid killer.

It is examiner's position, however, that these prior arts are not primary prior arts. Examiner explained that Bessette (I) , as primary prior art teaches about plant essential oil 0.05-15% ([0031]) in the composition with the solid inorganic substance as carrier ([0031]) can kill dust mites (acarids) as disclosed by Bessette (II)( col 7, lines 30-45) and to the extent as claimed in claim 11. NPL 'acarid killer is used as secondary prior art to teach sodium bicarbonate can be an 'inorganic solid substance' carrier and it can represent one of the other ingredients in the composition and can attain 95% exclusively in the composition as a carrier. Sodium bicarbonate 95% in combination with 5% essential oils has been disclosed by Bessette(I) and Bessette (II) which when sprayed over the carrier sodium bicarbonate, sodium bicarbonate can provide the function as an acaricidal agent. This combination can meet the claimed composition as claim 11 recites the transitional phrase "comprising" as does claim 23. The examiner notes that even if Knight is dedicated to insecticide, it is used exclusively as a teaching reference to show that greater than 60% sodium bicarbonate is conventionally used related to this type of application and thus at this concentration it's 'safe use' is well documented. Sodium bicarbonate in combination with plant essential oil, not only acts directly as an acaricidal agent, but another secondary prior art by Miller T has demonstrated that as a fungicidal agent, sodium bicarbonate kills fungus which is a food for the fungivorous acarids and thus acarids are deprived of foods also (p332, col 2, paragraph 2, e.g. 'fungivorous mites'). Thus the mechanism of actions as acaricidal agent for this composition is twofold.

Mr. Pereira suggested amending the claims to recite "consisting essentially of" language. Examiner stated that "consisting essentially of" would be treated the same as comprising unless applicants provide evidence that the extra ingredients i.e. 'plant essential oils" will fall outside the scope of the claims. Mr Pereira also suggested amending the claim to recite that it is only sodium bicarbonate which induces "at least 43% of death of acarids after 10 days" as claimed in claim 11.
